

## The concert On Higher Dreams is a new body of conceptual work from IKE

Stylistically cinematic in method, process, and scope – the sonic output of Isaac de Martin is erosive to the boundaries of genres. In the dusty remains, a neoteric sound is formed. Inspired by IKE's absorption of the Egyptian terrain, it is music that seeps ancestry, melds influence and provokes contemplation. The Wahat concert will be performed by IKE with musicians from the vibrant Egyptian music scene. The concert will merge IKE's album with traditional Egyptian music.
